WORLDWIDE ACCESSIBILITY SERVICES

REMOTE/ON-SITE CART • ASL • MEANING FOR MEANING
WHO WE ARE

Karasch is a family owned and operated, GSA-Certified, WBENC-Certified, Woman Owned Business.

We provide affordable accommodations for the deaf, hard-of-hearing and visually impaired communities in all industries and settings around the world.

Our accessibility clientele includes multinational corporations, world-renowned universities, government agencies and private individuals.

Our mission is to provide an inclusive, personalized and customized service to every Karasch client, despite their unique and varying needs.

To be successful in our mission we’ve created, and perfected, processes during our 40 years in business to guarantee consistent results.

THE KARASCH GUARANTEE

- Creative solutions to your unique accessibility questions
- Trained and experienced interpreters
- Capable and responsive technical support
- 98% accurate live captions

“Dana is very detailed-oriented and ensures that her CART transcripts describe all vocabulary and classroom jargon correctly. Additionally, she has been a great advocate for me, as someone who is hard of hearing in the classroom. She explained to me the proper way to interact with someone who is Hard-of-Hearing which has been incredibly helpful.”

Lizzy, University Student

ACCESSIBILITY FOR ALL!
Karasz has perfected the following CORE SERVICE OFFERING to meet the needs of the Deaf and Hard-of-Hearing Communities

**CART CAPTIONING**
Communication Access Realtime Translation (CART) is the process of turning the spoken word into captioned text. CART is provided in real-time for an individual or group of any size or in any setting.

The speaker’s audio is transmitted from the microphone to our captioner and displayed as text on a large video screen, monitor or laptop computer with 98% accuracy, all within 2-4 seconds.

Karasz provides on-site or remote captioning directly at your meeting, classroom or conference at any location in the world where an internet connection is available.

**MEANING FOR MEANING CAPTIONING**
This is real-time conversion of speech into summarized text for individual viewers. This service is most often provided for education, meetings and appointments.

**BROADCAST CAPTIONING**
Karasz has provided thousands of hours of captioning shown on Broadcast & Cable TV.

**OFFLINE/CLOSED CAPTIONING**
We provide closed captioning for pre-recorded material that is used for Broadcast and internet videos. The captioning for these can be turned on or off.

**Deaf, hard-of-hearing or visually impaired?**
Our in-house staff will guide your way

800.621.5689 • connect@karasch.com
OPEN CAPTIONING
We also provide Open Captioning which is similar to Closed Captioning. The difference is that the captions cannot be turned off. These are often referred to as subtitles.

INTERNET CAPTIONING
& LIVE STREAMING
Karasz adds captions to live-streamed events on the internet as well as uploaded videos that stream on sites like YouTube

AMERICAN SIGN LANGUAGE
ASL can be provided on-site or remotely in a classroom, business meeting or event. Our ASL interpreters are trained and certified to provide our clients with the best real-time service available.

BRALLE CART
For deaf and visually impaired consumers, Braille CART is provided by a CART expert who connects to the individual’s braille reader. This allows the consumer to interact in real-time in any environment.

AUDIO DESCRIPTION
Karasz offers Audio Description services for visually impaired individuals which is the process of narrating the actions and events that take place in a video or at a live event.

NOTE-TAKING
Karasz provides three tiers of note-taking services. Note-taking is the process of taking verbatim or summarized notes from lectures or meetings and presenting them in a readable format.

TRANSCRIPTION
The creation of a 100% accurate transcript from pre-recorded audio or video files.

“Karasz and their team definitely provided the professional and first class service we needed. The ASL interpreters and CART operator were amazing in their skill and stamina.”

Carla, Corporate Administrative Manager
THE KARASCH PROCESS

✔ YOUR SESSION
Your session is set-up and monitored by Karasch’s Accessibility Team. Your designated Accessibility Consultant is available to answer questions, secure additional technical support if needed and ensure the quality of your service meets your specific needs.

✔ IN-HOUSE TECHNICAL TEAM
Our US-Based in-house Technical Team monitors sessions to avoid any glitches or complications that could arise. Our robust array of technological solutions, on-line platforms and 24/7 in-house tech support are available to our clients around the world.

✔ KARASCH SERVICE PROVIDER
Your Karasch Provider is fully trained & certified, without exception. They undergo a rigorous vetting process and complete in-house training before they serve you, our client.

✔ SESSION BACK-UP
Your session is backed-up on our U.S.-based servers to ensure safety and accuracy. We are proud to provide a superior customer experience using U.S.-based staff, service providers and tech solutions, and apply the highest ethical and procedural standards.
REMOTE SERVICES ANYWHERE IN THE WORLD

We provide remote service anywhere in the world where a stable internet connection is available. For multiple people at multiple locations at any time, remote service reduces or eliminates travel costs, aligning with Karasch’s Green Initiative.
